PROFILE

Full-stack Software Engineer with **4+ years** at Bosch Global Software Technologies, building and modernizing enterprise web applications with **C#, .NET Core 8 and Angular**. Migrated legacy WCF and ASP.NET MVC systems to modern REST APIs and Angular 21, built an FAQ chatbot inside a production application, and is responsible for two applications used across Bosch and by automotive OEMs such as VW, BMW and Daimler.

EXPERIENCE

Software Engineer
08/2022 – Present

Bosch Global Software Technologies · Bengaluru

PDT Tools (ProdM) · .NET, Angular — **02/2024 – Present**

Suite of 10 release-management tools used across Bosch and by automotive OEMs.

- Migrated **SendToPlant** from WCF + ASP.NET MVC to a **.NET Core REST API and Angular** front end, released as version 3.0.0.
- Modernized **webFLOW**: replaced the WCF backend with ASP.NET Web API and delivered a full UI redesign.
- Upgraded **3 production apps from Angular 7 and 11 to Angular 21**.
- Developed an AI chatbot inside the application that answers users' FAQs and common how-to questions.
- Migrating **PDTVerifier** from .NET Framework 4 to a **.NET 8 API** with no change in behaviour.
- Fixed **security vulnerabilities** by upgrading vulnerable DLLs and packages across all applications in the suite.
- Built C# / ASP.NET REST APIs, .NET utilities and Windows apps that automate repetitive tasks; maintained data in Oracle.
- Contributed to all 10 tools; ship releases every PI and on demand, and prepare requirement specifications.

IPE – Integrated Planning Environment · Java — **08/2022 – 01/2024**

Planning platform used to plan and manage vehicle ECU software projects.

- Developed features and enhancements in Java, fixed defects and supported testing and releases.

RECOGNITION

SendToPlant migration
Move to .NET Core and Angular

webFLOW modernization
WCF to Web API and UI revamp

Automated log monitoring
Alerts on errors or app stoppage

Java to .NET switch
Ramped up quickly on C# and Angular

APPLICATIONS I'M RESPONSIBLE FOR

- **SendToPlant** – sends software to Bosch and OEM plants for ECU generation.
- **Archiver** – archives all files and data for every software container flashed to an ECU.

EDUCATION

B.E., Computer Science & Engineering — **2018 – 2022**

AMC Engineering College (VTU), Bengaluru · CGPA 8.41 / 10

SKILLS

BACKEND
C#, ASP.NET, .NET Core 8, Web API, REST APIs, WCF, Java

FRONTEND
Angular 21, HTML5, CSS3

DATABASE
Oracle SQL, SQL Developer

DEPLOYMENT
IIS hosting, release management

TOOLS
Visual Studio, VS Code, Git, Swagger, Postman, JIRA

AI TOOLS
GitHub Copilot, AI chatbot (FAQ)

SECURITY
Vulnerability remediation, DLL and package upgrades

CONCEPTS
OOP, MVC, REST, SDLC, legacy migration

METHODOLOGY
Agile / Scrum, PI-based releases

STRENGTHS

- End-to-end delivery
- Legacy modernization
- Stakeholder collaboration
- Quick learner

DOMAIN

- Automotive
- ECU software release management

LANGUAGES

English, Hindi
